William Gerard

PROFESSIONAL SUMMARY

Full-stack developer with over 4 years of experience specializing in frontend development. I create engaging, accessible user experiences while also bringing cross-stack expertise. Seeking a role in a collaborative, socially inclusive, and growth-oriented environment.

EXPERIENCE

Software Engineer | Augeo

March 2023 - Oct 2025

- Mentored 4 new developers in documentation, commits, ticket writing, and automated testing; reviewed and provided feedback on their work to foster growth and maintain quality standards.
- Independently led small to an open-source MUI tagging component and implemented an end-to-end mentions feature, enabling users to notify peers in posts and boosting engagement.
- Designed and implemented manager approval workflows with threshold checks and confirmation views, reducing manual review effort and ensuring compliance with reward policies.

TypeScript | Next.js | Material-UI | Storybook | Node.js | GraphQL | Apollo

Front End Developer | Mentra

July 2022 - November 2022

- Led the design and implementation of a comprehensive design system to improve the consistency and usability of the user interface, resulting in positive feedback from customers.
- Conducted accessibility testing and rebuilt UI components to ensure compliance with WCAG standards.
- Built a new feature for users to track assignments and streamlined the hiring process, resulting in improved user satisfaction.

TypeScript | Next.js | Chakra UI | Node.js | GraphQL | SQL | Prisma
